

2003 Bourget Protrak Rigid Chopper

This bike is beautiful and gets looks everywhere it goes. Bike is black & orange and with an S&S, 96 cubic inch "Satan" motor w/ 5 speed transmission. Plenty of POWER!! Frame is stretched 5 inches in backbone with a 45 degree rake and 4 inch stretch in downtube. Handle bars have a 5 inch rise and 7 inch stretch. All controls are polished. It has Bourget shorty pipes that sound terrific. Rolls on a 21 inch front wheel and 17 inch, 210mm, rear tire. Rides like a dream! I have got the original build sheet from Bourget's Bike Works. It has approximately 2700 miles. Please call Steve for more photos, questions, or to see in person. NO JOY RIDES!! Cell 317-727-1783
